Farmers to Vote

on U. S. Corn-Hog Plan on Saturday

Riley Lewallen to Have Charge of Hope City Hall Polling Place

IS OPEN ALL DAY

National Referendum Balloting From 8 Saturday Morning to 10 p. m.

One polling place where Hempstead county farmers can cast their votes in the nation-wide corn-hog referendum Saturday, October 26, has been set up in the county. It is announced by Frank Stanley, county agent.

Only one question will be on the ballot. Are you in favor of a corn-hog adjustment program to follow the 1935 program which expires on November 30, 1935?

All operators and owners, or their official representatives, of farms which produced corn or hogs in 1935 may vote whether they signed 1934 or 1935 corn-hog contracts or not. Each eligible person is entitled to only one vote.

The polling place, which will be open from 8 a. m. to 10 p. m., together with the corn-hog committee members who will be in charge, follow: City Hall, Hope, Riley Lewallen, committeeman. County results of the referendum will be wired to state headquarters at Little Rock by noon Monday, and the state results, in turn, will be sent to Washington by Tuesday.

Officials of the Agricultural Adjustment Administration point out that unless a sufficient number of farmers vote favorably, there will be no program. The Administration must be assured that a sufficient number of farmers will participate to make a program operative and successful.

Farm Records Are Best in Arkansas

14,000 Record Books Accounted for Under AAA's New System

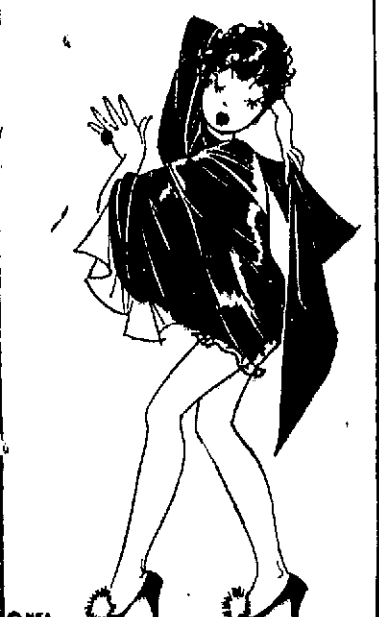

LITTLE ROCK—More farm record books for 1934 were turned in to the AAA by Arkansas farmers than by those of any other state, C. C. Randall, acting assistant director in charge of the Agricultural Extension Service said Thursday.

An accurate picture of farming operations in revealed in the books, which are being examined in a co-operative study conducted by the Department of Agriculture and the University of Arkansas College of Agriculture, he said.

About 14,000 Arkansas farm record books have been tabulated and summarized in the project, J. C. Gallows, farm management specialist of the Extension Service in Washington, reported to Mr. Randall.

Plans were made Thursday by Mr. Gallows, Mr. Randall and E. D. White, chairman of the Cotton Allotment Board, in a conference here. Group meetings will be held by county agents also.

Hope-Nashville "Kick-Off" at 7:45

Bobcats in Shape for Hardest Home Game This Season

"We've Even Chance to Win," Is Coach Hammons' Opinion Friday

EXPECT BIG CROWD Nashville Team Bringing 1,000 Fans for Annual Football Classic

Speed, power and deception will be displayed here Friday night when Hope's Bobcat football team clashes with Nashville High School in a game that will more clearly determine the leadership in Southwest Arkansas football circles.

The Bobcats are ready to go, Coach Foy Hammons declared at noon Friday.

"I believe the team is in tip-top shape and that we have an even chance to win," the coach said. "I believe the game will be the hardest fought battle on the schedule. It certainly is the most important one to us," the coach continued.

Nashville is coming here with the avowed intention of scoring a victory. We are going to do our best to upset them and I believe we can," Hammons concluded.

The kick-off is set for 7:45 p. m. A new attendance mark is expected to be set with big delegations coming here from Nashville, DeQueen and Prescott. Nashville will bring down nearly 1,000 fans, it was estimated Friday.

Two hundred reserved seats on the Hope side of the field were nearly taken with a rush-sold at noon. On the Nashville side several reserve seats remain on sale at Hope Confectionery. They may be purchased for 15 cents.

The two teams have good records this season. Both squads are reported in top shape and about evenly matched in weight and experience. Hope probably has a slight advantage in poundage.

Farmer and Son Are Killed in Collision With Lumber Truck

Two Riding in Front Seat Crushed to Death Near Forrest City as Heavy Timbers Crash Through Windshield

MEMPHIS, Tenn.—(AP)—W. H. Hooker, 55, farmer, and his son Ernest, 20, were killed when their automobile collided with a lumber truck near Forrest City, Ark., Friday.

W. H. Adams, of Arkadelphia, Ark., said he was the driver of the truck, was not hurt seriously. Another of Hooker's sons, Harley, was injured seriously. The Hookers lived at Palestine.

Their automobile collided with the rear end of the truck, the timbers tearing through the windshield and killing the two occupants of the front seat.

Japan Asks U. S. Apology for Sailor

Drunken Tar Is Charged With Violating Japanese Sacred Shrine

SHANGHAI, China.—(AP)—What was described as an insult in a shrine to the Japanese flag by a sailor of the United States Navy at Tsingtao, China, was reported by the Rengo (Japanese) News Agency Thursday to have aroused high indignation.

A naval officer who recently came from China said, "if that report is true it may be serious. That shrine is one of the most sacred the Japanese have."

Six submarines of the American navy, the submarine tender Canopus and the submarine rescue vessel Pigeon are at Tsingtao.

Japanese consular authorities have demanded apologies from the captain of the vessel to which the seaman is attached. Neither the name of the vessel nor the sailor was disclosed.

Police said the incident occurred during the celebration of the autumn festival. The sailor, drunk, entered the Japanese shrine unobserved and tore down the flag and trampled upon it.

Dutch Schultz Dies of Bullet Wounds

Notorious New York Gangster Succumbs to His Enemies' Attack

NEW YORK.—(AP)—Flying rumors and theories, and a wide search for suspects, kept police alert Friday as the aftermath of the virtual extermination of Dutch Schultz's racketeering gang by underworld bullets.

The center of the search was about Charles Luciano, said to be the most powerful Manhattan racketeer, and Al Stern, reputed professional killer.

Schultz died in Newark City hospital. He had been shot in the abdomen by one of two gunmen who attacked him and three of his followers about 10:30 Wednesday night in the back room of a Newark tavern, around the corner from the Robert Trent hotel, where Schultz had been living for several weeks.

City Primary List to Close Saturday

E. P. Young Reported to Be Candidate for Alderman From Ward One

With the deadline less than 48 hours away for candidates filing pledges in the City Democratic primary election to be held November 26, only four aspirants to public office had filed pledges Friday.

The deadline is midnight, October 26. On November 26 the city will elect one alderman from each of the four wards, a city attorney and city clerk.

Friday afternoon only two candidates for aldermanic posts had filed pledges, Dr. P. D. Henry, of Ward Three, who is seeking re-election and Dr. P. B. Carrigan, of Ward Four, also seeking re-election.

"City-Clark" R. Billingsley has filed for re-election, and W. S. Atkins has also filed for re-election as city attorney.

E. P. Young, of Ward One, was reliably reported a candidate for alderman in Ward One, although he had not filed his party pledge Friday afternoon.

Roy Anderson who is completing two terms as alderman in Ward One, will retire, Mr. Anderson said Friday.

To Wind Up Dole by Close of Year

42 States to Be Cut Off During November, Hopkins Declares

WASHINGTON.—(AP)—A doleless relief program for next year was forecast Thursday by Harry L. Hopkins as he set November for ending direct federal relief payments. He predicted that the relief load would be "appreciably lighter" during the year beginning next July 1.

Although the program still was 2,000,000 jobs short of fulfillment and the original date deadline only a week away, Hopkins said it was proceeding "precisely according to schedule" and that 42 states now on the dole will be cut off "during November."

Hopkins reported there were 6.8 fewer families on relief in September than in August. He said the drop was from 3,500,573 to 3,363,199 and that federal and local expenditures declined 15.1 per cent from \$148,963,094 to \$124,956,299.

Hopkins said his Works Progress Administration would spend its entire quota of the \$3,000,000,000 works fund about \$1,250,000,000 by next June 30. He hinted that allotments to slow-moving agencies may be reduced.

"We just got the money approved in the last week, in any large amount," he said. "I don't think there has been any undue delay. We are dealing in large sums."

50-Foot Sidewalk Offered for \$14 With WPA Labor

Mayor Graves Announces This as Only Expense to Property Owner

FRACTION OF COST

WPA Will Build 50-Foot Concrete Walk, 4 Inches Thick, 4 Feet Wide

Hope property owners willing to co-operate with the federal Works Progress Administration (WPA) may build sidewalks in front of their homes at a cost of only \$14 per 50 running feet, Mayor Albert Graves announced Friday.

The mayor said he has been given these figures by the local WPA office. The \$14 charge covers the property owners share of building a concrete sidewalk four feet wide, four inches thick, and 50 feet long.

The WPA will furnish all labor and other expense save materials, toward which the property owner will contribute \$14, with distances longer than 50 feet at a proportionate charge.

The city wishes property owners to co-operate wherever possible, as Hope needs sidewalk construction on many streets for the convenience of pedestrians in wet weather, and to keep schoolchildren from having to walk in the street whether wet or dry, Mayor Graves said.

The \$14 charge is said to be a very small part of the cost of constructing a 50-foot sidewalk under private construction.

Nameless Man Is Given Burial Here

Guernsey Woods Victim Laid to Rest After Futile Identity Hunt

Burial service for an unknown man was held at 2 p. m. Thursday in Rose Hill cemetery.

His identity was not learned here after 11 days of unsuccessful effort. Nor was the cause of his death determined.

The man was found in a strip of woods near Guernsey, west of Hope. He was unconscious. Brought to a hospital here, he died soon afterwards.

The body was removed to Hope Funeral home where it was held for more than 500 persons viewed it during the 11 days it was held there.

There were no marks of violence on the body. Nothing in the man's clothing gave officers a lead on or to attempt to learn his name or of relatives.

A death mask of the man, showing every wrinkle, mold and feature of the face, was made by Rufus Herndon, Jr. The mask is held at the morgue and may be used in further attempts at identification.

Second Is Dead in Accident on No. 70

J. R. Derossett, Woman's Companion, Also Succumbs to Injuries

LITTLE ROCK.—J. R. Derossett, aged about 45, of Trumann, Polk county, injured late Wednesday at Lenoire when he was struck by an automobile at the Baptist State hospital Thursday. Mrs. Bessie Dowell, 30, also of Polk county, who was with Derossett, died soon after she was struck.

H. K. Thatcher, who lives near Pine-mountain in Pulaski county, driver of the car, was exonerated by Coroner Fred E. Berry.

Derossett left the State hospital Wednesday afternoon with Mrs. Dowell, who had been a patient there since September 17. He signed her parole papers and agreed to return her to her home.

Dr. A. C. Kolb, superintendent of the hospital, said Thursday that Mrs. Dowell was committed after Derossett had filed insanity charges against her. He said the woman, listed as a widow and childless, had been a good patient and that the staff, in an examination immediately before her release Wednesday, found her sane.

If the world's temperature were lowered but 10 degrees, for the year round, another ice age would result.

"Grave" Says British King

LONDON, Eng.—(AP)—King George expressed "grave concern" over the Italo-Ethiopian crisis Friday in his address on the prorogation of the eighth parliament of his reign.

Domestically, he noted the kingdom's further considerable advance toward prosperity, and he reported that relations with foreign powers continue to be friendly.

Ethiopians on March

HARAR, Ethiopia.—(Copyright Associated Press)—Twelve thousand well-equipped Ethiopian infantry, cavalry and anti-aircraft troops—the main body of the Harar regulars—started for the southern front Friday.

They were reviewed before their departure by Ras Nasibu, who will command them in the battle against the Italians.

Leading 2,000 heavily-laden camels the soldiers rumbled southward in American-made motor trucks toward the Fascist forces led by General Rudolfo Graziani.

Ras Nasibu said that Jijiga would be one of the main points of defense. He laughed at reports that the Ethiopians had suffered many casualties on the Ogaden front.

Withdrawal Libya Troops

ROME, Italy.—(AP)—Italy put responsibility for reinforcing European peace up to Great Britain Thursday night by announcing withdrawal of one division of troops in Libya.

A government spokesman disclosed Premier Mussolini's decision, asserting it represents "a major contribution" to peace, not only in Europe but also in East Africa.

Italy emphasized the reduction was undertaken without any reference to a decrease in Britain's naval strength in the Mediterranean. The concentration of Fascist troops in Libya had been interpreted by London as a threat to Egypt.

The steamship Sannia, cubable of transporting 2,000 men, sailed from Naples for Libya to take away the first contingent of approximately 15,000 troops involved in the withdrawal. This was regarded here as the first.

Liquor Taxes Have Yielded 1/2 Million to State Treasury

Governor Flays Convention's Misrepresentation of His Position

'WHY NOT TELL ME?' 'Conditions Worse? Where?' Futrell Asks W.C.T.U. to Point Out

LITTLE ROCK.—(AP)—Governor Futrell challenged the Woman's Christian Temperance Union Friday to cite facts proving that conditions have grown worse since the legalization of liquor and denied flatly that he had ever promised to repeal the liquor law.

Replying to criticism by the W. C. T. U. at its state convention Mr. Futrell said:

"I dislike to be misrepresented. People who write and speak should stick to facts. I never at any time promised to repeal any law. The power of repeal rests exclusively with the legislature."

The governor cited reports of the State Revenue Department and said: "In the face of these figures how can people say conditions have grown gradually worse?"

He said people desiring repeal have an opportunity to attain their objective at the next general election.

The W. C. T. U. convention had adopted a resolution expressing its "deepest disappointment" over the "unkept promise" of Governor Futrell to representatives of the dry forces before he signed the liquor bill that "if conditions grew worse he would have the liquor law repealed."

"Since that time," the resolution read, "the legislature has been called into special session and the governor's attention has been called to conditions which have grown steadily worse, cities being honeycombed with drinking places located near schools and churches, and accidents on highways of drunken drivers increasing—but he has done nothing."

"We respectfully ask that, in some measure, the governor's promise be fulfilled."

Futrell's Statement

The full text of Governor Futrell's statement follows:

"I dislike to be misrepresented. People who write and speak should stick to facts. I never at any time promised to repeal any law. The power of repeal rests exclusively with the legislature."

"The congress submitted to the several states and constitutional amendment repealing the 18th amendment, in pursuance of which the legislature called an election in July, 1933."

"During the campaign for and against the proposed repeal amendment I took no part whatever."

"During three special sessions of the legislature thereafter called, there was nothing in the way of liquor legislation to be repealed. It would have been absurd to promise to repeal a law which did not exist, and which had not then been thought of. The three special sessions of the legislature had come and gone long before the regular session of the legislature in 1935 convened which enacted the Thorn law."

"At a protest hearing held in the reception room of the governor's office, while liquor legislation was pending before the 1935 legislature, I said to the people then present that if any liquor law should be enacted, and conditions thereafter grew worse, I would be free to repeal, and would call an extra session of the legislature for that purpose."

"It is therefore, it appears ridiculous to say that before any special session was called I had promised to repeal the liquor law, as there has been no special session of the legislature since the liquor law was enacted."

"People should inform themselves of the facts before making solemn statements to the press. Their press account says that conditions have grown worse. It is noticeable that they don't cite specific instances."

Why Not Tell Him?

"They point out no action or place in the state where conditions are worse. They do not furnish us with facts. Why not give me the facts, and see if the conditions, if found to be bad, are corrected?"

"It is pertinent to state some facts in connection with this matter. The State Revenue Department reports 357 convictions for liquor violations (twice as many arrests were made); 3,176 gallons of whiskey destroyed and confiscated; approximately 614 whiskey stills destroyed or confiscated; \$26,072.24 in fines collected and turned into the state treasury."

"The chief of State Rangers reports 556 arrests for liquor violations; 74 stills destroyed; 16,465 gallons of mash destroyed; 412 gallons of liquor destroyed. An average of over nine stills for each county has been destroyed."

"In the face of these figures, how can people say that conditions have grown worse?"

YOUR HEALTH

DR. MORRIS FISHER

Editor, Journal of the American Medical Association, and of Hygiene, the Health Magazine

There is a common impression that women are a weak vessel, and the Bible gives authority for the impression. Yet scientific records seem to indicate that the contrary is true.

Quite recently one of the statisticians in a large clinic studied the sex of approximately 300,000 diseased persons who had been examined. Their diseases involved all sections of the body.

The results were interesting. They showed that serious diseases involving the organs of digestion, like the stomach, the intestines and the liver, affect men much more frequently than they do women.

It was also revealed that ulcers and cancers of the lip, the tonsils, the stomach and the intestines, and hardening of the liver affect men more frequently than women.

Strangely, however, diseases of the gallbladder, including inflammation of the bladder and gallstones, affect women and girls much more than they do men. No one has determined why this should be so.

Some doctors have said that women are fat more often than men; others seem to think that there is some relationship between the inflammation of the gallbladder and the child-bearing function of women, but the figures simply do not work out. Women who have never been overweight or who have never had children also have distended or inflamed gallbladders more often than do men.

Other conditions which affect men more than women are cancer of the lungs, pneumonia, asthma, and hardening of the arteries. Sudden death from heart disease is much more frequent in men than in women, and men also have gout and stones in the kidney in numbers beyond those of women.

You might reason from this that men should die at an earlier age than women. Figures show that this is true. In 1927 at the age of 10 years a boy could reasonably expect to live twenty years less than a girl of the same age. At the age of 75, there are far more women than men, and there are about twice as many women living to be 100 as men who live to be 100.

Incidentally, at this time, there is only one living ex-president, but there are six wives of ex-presidents still living.

All of this goes to show that men in general are not as healthy as women, but women suffer far more than men with nervous disturbances such as sick headaches, hysteria and neurasthenia.

For a good many of the affairs of life, women are still rather largely dependent on the male. Yet boy babies die much more frequently than do girl babies, and the male really seems to be biologically handicapped by a lower degree of vitality.

A BOOK A DAY

By BRUCE CATTON

"Meteor," by Karel Capek, will make an interesting novel for readers who have the patience to unwrap the cloudy obscurities in which its kernel of story is wrapped. For those who prefer to take their reading matter straight it may be pretty confusing.

It gets away to a fine start, at any rate. An airplane crashes during a thunderstorm somewhere in mid-Europe. The pilot is killed; the sole passenger is knocked senseless, his face buried so as to make identification impossible. He is luged to a hospital, where it is discovered that in addition to his other troubles he is suffering from yellow fever.

Question: Who is he, where did he come from, and what was he doing flying across Europe in a blinding storm? And how did he get yellow fever?

There's no way of finding out for sure, so obscure clues are pieced together. A nurse gets part of the story by means of a vivid dream; a clairvoyant gets some more of it out of the blue sky; a poet pieces together the remainder by means of his creative imagination.

So they put together the man's history; an Englishman who worked in Cuba, got into divers scrapes, made and lost a fortune, had a tempestuous

love affair and was, at the time of his death, hurrying home to redeem the family fortunes so that he could go back in triumph to dazzle the heroine. A good enough story, surely—but I object to needless obscurity. There's a now-you-see-it-now-you-don't to it that makes it hard to follow. A lot of good people are going to find it too confusing to finish.

Published by Putnam, it sells for \$2.

YOUR CHILDREN

By Olive Roberts Barton

Nothing makes me so angry as to hear a smug girl of sixteen call her mother old-fashioned. Or a youth too young to shave call his father an old fogey. Young people today have a habit of thinking that anyone born in or previous to 1800 lived in the dark ages before civilization began.

I'm not referring to the usual old brags about youth and old age; everyone knows that at sixteen he thought his own parents ancient. That's easy to understand.

It is, rather, the misconception about the "slowness" of living when poor mother and dad were young, and the hangover of such sad days that now cramps their style. The idea of bygone chaperones, dry parties and no cars—incredible to today's children.

The other day a friend went to a football game with her son and daughter. The boy chafed because he wanted to be with his crowd, but he endured the ignominy of escorting a parent and sister.

How Times Have Changed
As they made their way out, the lady began to notice the empty flasks lying about. By the time they had reached the stadium gate she was shocked beyond belief. She and her husband had been football fans at the turn of the century, but not once in the old days could she recall seeing so much as a beer bottle after a game.

"If Bill had been with his crowd he'd have been drinking," she thought. "He's just as the age when he wants to be smart. Poor Billy. What chance does a boy have today? Parents have no influence against all this."

She also interested herself in two or three places where Mary and her friends often drove for a few rounds of dancing. "Just the school crowd, half of them neighbors," she had complacently assured herself.

Quietly she and her husband took to dropping in for coffee and a sandwich. Once she saw a man from another table, who had been drinking mightily, tap Skip Miller on the shoulder and step off with Mary. Almost every girl at Mary's table danced with one or more of the older strangers, men of a type she would not have admitted to her house.

"It's all just fun," insisted Mary. "Mother, you just can't understand, you're so old-fashioned. Young people know what they're doing."

"If you like dancing with a whisky breath down your neck, my dear, you are fastidious than I thought. If it takes that to give you a thrill, then I consider you just a bit vulgar."

"It's all in the way you look at it," said Mary. "You just can't understand, Mother."

This mother prides herself on understanding and tolerance and broad vision. But she has suddenly changed her point of view and tightened the reins; she refuses permission to roadhouses, and has penalties for a gin-touched breath. "Of course you're living," she declares, "we're headed straight for the old-time chaperone again, and the dry party, and a higher age-limit for car licenses."

He released her and sat looking at her glumly.

"What's the matter, honey?" he asked.
"Why, nothing," she said innocently.
"Well," said Bobby doubtfully, "Well?"
"Well, why don't you—why don't you want me to kiss you?"

As a matter of fact, Jean was wondering the same thing. Why didn't she want him to? But she only said, "Oh, Bobby, let's—just talk."

Bobby stared at her, then made a humorous grimace, took his arm away, and said, "Okay. Let's talk. Go ahead."

She pouted prettily and said, "Oh, Bobby, don't be like that." "Like what?"
They looked at each other, and discovered that they were close to a quarrel, and neither of them understood quite why.

"What's the matter tonight? Want me to go home?" demanded Bobby.
"Nothing's the matter. Do you want to go?"

The looks they were exchanging came closer to the classification of "glare." Bobby sat back and crossed his legs. He took out a cigarette and lit it with vast care. Then, impulsively, he dropped his cigarette into the ashtray, turned to face Jean, laid his hands on hers, and said softly, "Jean, dearest, let's not quarrel—please. Is anything wrong?"

To his surprise her eyes became misty. She shook her head "No." "I love you, Jean. You love me, don't you?"

SUE looked at him a long time before she answered, and then she found herself saying, rather shakily:
"Oh, Bobby, it's so—you see, we've known each other all our lives, and I know I'm terribly fond of you . . . but I wonder—"

"Yes?"
"I wonder if maybe—"

She left the sentence unfinished. He tightened his grip on her hands and said, "Please, Jean, for Heaven's sake—maybe what?"
"Oh—"

She withdrew her hands, reached for the telephone at the corner of one eye. "Maybe it's just that I love you like—a like a sister would. I mean—"

Bobby suddenly had a depressing mental image of the long and romantic figure of Sandy Harkins; and he said soberly, "Jean, is there—do you care for somebody else?"

She looked miserably at the floor and said, "I don't know."

"You never thought you loved me like a sister until just now," persisted Bobby. "Is it?" He hesitated. Then, hating himself for saying it, he said, "Is it this far, kins fellow?"

She made no answer but continued to stare at the floor.
"It is, isn't it?" he said. Still she made no answer, but it seemed to him that her continued silence

Price Reviews Case Against New Deal

A.P. Observer Weighs Hoover's Speech and Robinson's Answer

By BYRON PRICE
Chief of Bureau, The Associated Press, Washington

Putting aside individual issues, the Republican indictment against the "new deal" may be summed up, as it stands today, in a few brief specifications:

That it is unsound economically. That it is not working in practice. That it is contrary to the Constitution. That it violates the Democratic promises of 1932.

The first three of these charges have been discussed widely, and Mr. Roosevelt's supporters have replied to them at some length.

It has been argued on the administration side that new economic measures were necessary if the country was to be rescued from the depression; that the beneficial results are apparent in improved economic conditions; and that "new deal" policies do not actually violate the Constitution, but merely apply constitutional principles in the light of the greatly changed necessities of the present day.

There remains the final charge of bad faith. Republican spokesmen are declaring with increasing frequency that the most vital features of the Democratic platform on which Mr. Roosevelt was elected have been scrapped; and thus far most Democratic leaders have ignored the accusation, or at least have undertaken no complete reply to it.

Hoover's indictment
The weight attached to this part of the indictment in Republican quarters is evidenced by the prominence given it by Mr. Hoover in the keynote address he recently delivered at Omaha.

After suggesting that the Democrats would have polled far fewer votes three years ago if they had disclosed their intent to increase expenditures, maintain a deficit and increase the number of government employees, the former President continued:

"They would have lost still more votes had they informed us that they would abandon the gold standard; that they would devalue the dollar by 41 per cent; that they would repudiate government obligations; that they would seek to circumvent the Constitution; that they would attempt to socialize and regiment Americans."

Mr. Hoover takes the negative aspects of the case. He charges lack of frankness, rather than actual affirmative deception. Other Republicans, however, have gone further, quoting directly the Democratic platform promises to reduce government expenditures by one-fourth, maintain a "sound" currency, and enforce strictly the anti-trust laws.

Some even have pointed out that the Socialist platform, not the Democratic, which proposed such things as a \$5,000,000,000 relief appropriation, a \$5,000,000,000 public works appropriation, and old-age pensions.

Robinson's Reply
A reply to Mr. Hoover's speech was issued by the Democratic national committee in the form of a statement by Senator Robinson, the party's leader in the senate.

This statement took exception to the former President's figures on expenditures, disputed his thesis that the present industrial upturn dated from the supreme court decision holding NRA unconstitutional, and concluded:

"Like every other Republican speaker of the present era, while deploring the relief expenditures, he gives no hint of any project, plan, or even an idea of a substitute program to keep the unemployed from hunger and

hardship until such time as industry can and will put them back to work."

The statement may or may not have been intended as an all-inclusive answer to Mr. Hoover but, for whatever reason, it did not review in detail his charges of lack of frankness.

If this Democratic utterance is significant in its content and in its omissions, it would seem that the dispute develops in this fashion:

The Republicans say the Democratic party has broken faith, duped the voters, and turned its back on solemn promises. The Democrats reply: "How could it have been helped, and what would you have done?"

But perhaps much more will be heard about this later.

GLORIFYING YOURSELF

By Alicia Hart

New York society women seen lunching in smart restaurants these days use less makeup and more natural looking nail polish than they did a season ago. Cheeks are pink, to be sure, but they don't look too red and painted. Nails are beautifully manicured and, in most instances, covered with pale red or shell pink polish instead of weird shades of orange and deep scarlet.

One tall, dignified luncheon guest on the Starlight Roof at the Waldorf-Astoria wore shell pink polish with an iridescent finish. The effect can be achieved by putting on a coat of pink and covering it with a thin coat of quite colorless mother-of-pearl.

The subtle combination made her hands look pale and graceful.

This same woman's cheeks were a pale rose color that suited beautifully her fair skin and tawny brown hair. Her lips were bright with lipstick that somehow seemed to harmonize with her natural coloring and with her cheeks as well. Her long lashes seemed bright and shining. Undoubtedly she had used the new blue-violet mascara which makes lashes glitter and glisten in the sunshine and under artificial lights.

In the Terrace Room at the Plaza three young ton guests showed great individuality in makeup. The blonde wore rose lipstick, rouge and nail polish and carried a black stude bag with large fastener ornament that matched the rose. Maybe she didn't plan it, but the effect was charming.

The brunette, in a bright red hat, had on rouge and nail polish that harmonized with it and the third girl, a lighter brunette, wore no polish, no rouge and a good deal of lipstick. She was powdered, of course, and her ringlet coiffure was beautifully done to flatter her face and complement her tricorn hat with a black veil.

Autumn

If the autumn of life is half as lovely as the autumn of earth, we need not grieve for the vanished days of a rapturous spring. Nor beg for one moment of rejuvenation. We have loved the snows of hawthorne and plum. That rivaled the frost flakes, mystic designs. But what of a world in crimson and gold. With wild grapes spilling their purple wines. And if winter should come? Why not be content. To leave your life in the hands of a God. Whose mind could conceive the autumn of earth. And star it with asters and gloden-rod?—Selected.

Revival to Open Here This Sunday

Webb-Henry Party Will Hold Services at Hope Gospel Tabernacle

The Webb-Henry evangelistic party will begin a revival campaign at the Hope Gospel Tabernacle Sunday, October 27.

The party consists of the Rev. Bert Webb of Minnesota, evangelist and song leader; Mrs. Bert Webb, who will have charge of the children's services; Fred Henry, blind pianist of Tulsa, Okla., and Mrs. Henry.

The Rev. Mr. Webb made a favorable impression on those who heard

Rev. Bert Webb

When he was here for three services early in September. He comes highly recommended as an evangelist and pastor. He has just concluded a revival campaign at Faith Tabernacle, Tulsa.

It is not often that a city the size of Hope has the opportunity of hearing a musician of the ability of Bro. Fred Henry. While Mr. Henry has been blind since he was a small boy, he is a genius in music, particularly with the piano and piano-accordion. He has a national reputation and ranks high among the great gospel musicians of the times.

All four of the party are singers and will render solos, duets, trios and quartets from time to time. Services will begin promptly at 7:30 each night.

Yerger Loses to Nashville 13 to 0

Early Threat by Locals Fails to Materialize on Nashville Field

Yerger High School Tigers took a 13-to-0 drubbing Thursday night at the hands of a negro team at Nashville.

It was the second game of the season for Hope, the locals having fought a scoreless battle here last week against Washington High of Texarkana.

The Tigers opened the game at Nashville with a rush, marched to within a few yards of the goal line, but lacked the power to push over.

In the second period a Nashville halfback got loose on an end run for 30 yards and the first score of the game. Nashville scored its other touchdown in the third quarter on a line plunge from the three-yard stripe.

Playing best for Hope were: Jabbo Walker at center, Riggins fullback; Watkins, right half; and C. Wright, right end.

The game ended a two-year standing. Hope having won last season, 19 to 6.

The present liquor legislation was not my idea. I signed the bill which was passed after some hesitation, because of the great number of people in distress, and for the further reason that I believed it would improve the conditions then existing.

"The conditions then in this state were most horrible and intolerable. Everybody well-informed knows that anybody could buy whisky that wanted to. They further know that bootleggers advertised their business. They don't do that now."

"The liquor law has produced up to October 20, 1935, \$474,300.79. This money is appropriated for the relief of people in distress. It is provided by law that the people may vote on this question at the coming election. By their votes they can repeal the law and abandon this revenue. The election is not many months away."

Attorney Indicted in Veteran's Case

W. W. Smith, of Washington, D. C., Claimed 40% of Arkansas Allowance

LITTLE ROCK—An Arkansas veteran of the World war who can neither read nor write is represented in a federal indictment disclosed in Washington Thursday as the victim of excessive charges for legal service in securing disability compensation from the Veterans Administration.

William Wolff Smith, Washington lawyer and former general attorney for the Veterans Administration, made \$500 a month in Washington Thursday for his appearance in federal court at Jonesboro during the term which begins November 23. Smith's arrest followed indictment by a federal grand jury here on a charge of collecting more than the legal fee from Arthur E. York, World war veteran at Corning, whom Smith is alleged to have represented in securing disability compensation.

The United States attorney's office here declined to comment on a report from Washington that an Arkansas lawyer is named in the same indictment.

York said last night at Corning that Ernest L. Holloway, Corning lawyer, had represented him in securing disability compensation and had assisted Smith in the case. The original transaction involving \$4,200 began in 1931, he said.

Smith resigned from the Veterans Administration in 1932 after Representative Blanton of Texas had criticized him for accepting \$187.50 monthly in disability compensation while he was drawing an annual salary of \$9,000 from the Veterans Administration.

He is said to have appeared before the Veterans Administration more than a year after his resignation, acting as associate lawyer for York, for whom an adjusted rating and a lump sum back compensation payment were obtained.

He sued York in Clay county for recovery of \$1,295, contending that he had a contract with the veteran for a fee amounting to 40 per cent of the amount recovered. Consent judgment for \$569.19 was entered.

The federal indictment followed. The government charged that the fee recovered exceeds that prescribed by law.

Weekly Sunday School Lesson

Belshazzar's Feast

Text: Daniel, 5:1-28

The International Uniform Sunday School Lesson for October 27.

By WM. E. GILROY, D. D. Editor of Advance

Temperance lessons have a new meaning, and there is a new need for them at an hour when such sins of debauchery as Belshazzar's feast can be duplicated on a small scale in so many communities.

The debauchery of individuals, of families and nations, through drink is always associated with other dire evils.

Belshazzar was ruler of a great and proud empire, but he had not established his empire in righteousness and truth. The fate of his father might well have warned him, for Nebuchadnezzar had ended his career of conquest and greatness a broken and pitiful figure.

Belshazzar had refused to be warned, and in the hour of his fall judgment had come upon him. Writing had come upon the wall which had struck terror to his heart, but which none of his soothsayers had been able to reveal.

Then in this hour of fear and need, the queen had remembered Daniel, the Hebrew captive, and they had brought Daniel into the king's presence to read the writing.

Daniel, strong youth, hero, as disciplined in mind, soul and body as well trained, dared to speak to the king without subterfuge. He was prepared to read the writing, but before reading it he spoke out against Belshazzar the sputnik of truths and righteousness.

He brings against the ruler the indictment that he has lifted up himself against the Lord of Heaven, that he has misused and desecrated divine things, and that he has perverted all true worship to things of silver and gold, of brass and iron.

"The God in whose hand thy breath is, and whose are all the ways, hast thou not glorified," said Daniel.

With what sobering intensity these words must have come to the fear-stricken king! Then in this tense moment, Daniel begins to reveal the writing. "God hath numbered thy kingdom, and brought it to an end. Thou art weighed in the balances, and art found wanting. Thy kingdom is

divided, and given to the Medes and Persians."

There is a significance in this lesson beyond the outward facts of history in the rise and fall of kings and kingdoms. It is told that in that night was Belshazzar, the Chaldean king, slain, and that Darius the Mede became the ruler of the kingdom.

The Persian triumph is a matter of history. But the lessons of the story lie deeper, and they strike at the heart of every man's life.

Every man is called to be the king over his own soul. In the exercise of that sovereignty he may make his life great and secure, or he may make it foul and degraded.

"Dare to be a Daniel" is still a finger mark for the way of right and strength and honor.
